WHO WE ARE ?

IN 2006, EUROTRAY STARTED PRODUCTION AS AN INVESTMENT OF ÇEMESAN GROUP WHICH MADE A NAME FOR ITSELF IN STEEL FIELD.

BRINGING A NEW ENERGY AND A BREAT OF FRESH AIR TO THE SECTOR, EUROTRAY REACHED LONG- TERM GROWTH PLANS IN A SHORT TIME OF 5 YEARS AND SAW THAT GROWTH WAS CERTAIN WHEN THE JOB IS HIGH QUALITY.

THROUGHOUT THE PROCESS, WE HAVE BEEN THE SOLUTION PARTNER OF MANY PRESTIGIOUS PROJECTS IN A WIDE RANGE OF LOCATIONS FROM THE MIDDLE EAST TO AFRICA, AMERICA, AND ASIA. OUR PROVEN EXPERIENCE AND STRENGTH IN TURKEY'S STEEL SECTOR CREATED A LEVERAGE EFFECT AND WE, AS EUROTRAY, REFLECTED THIS STRENGTH TO OUR QUALITY AND PRODUCTION.

As Eurotray, we can briefly summarize our working principle as follows:

In the light of our 100% home production and always-positive stock principle; our team contributes to the selection of the right product, reveals the most cost-effective solution, brings solutions to the problems our customers face, and assures the application and gives full support to our customer starting from the design phase of the Project.

Since we have a project-oriented point of view, we propose a strategic action plan and deliver on time in the proper order. To do this, we design our production automation ourselves and invest continuously. Therefore, we both provide continuity in quality and increase efficiency and offer reasonable prices to our customers.

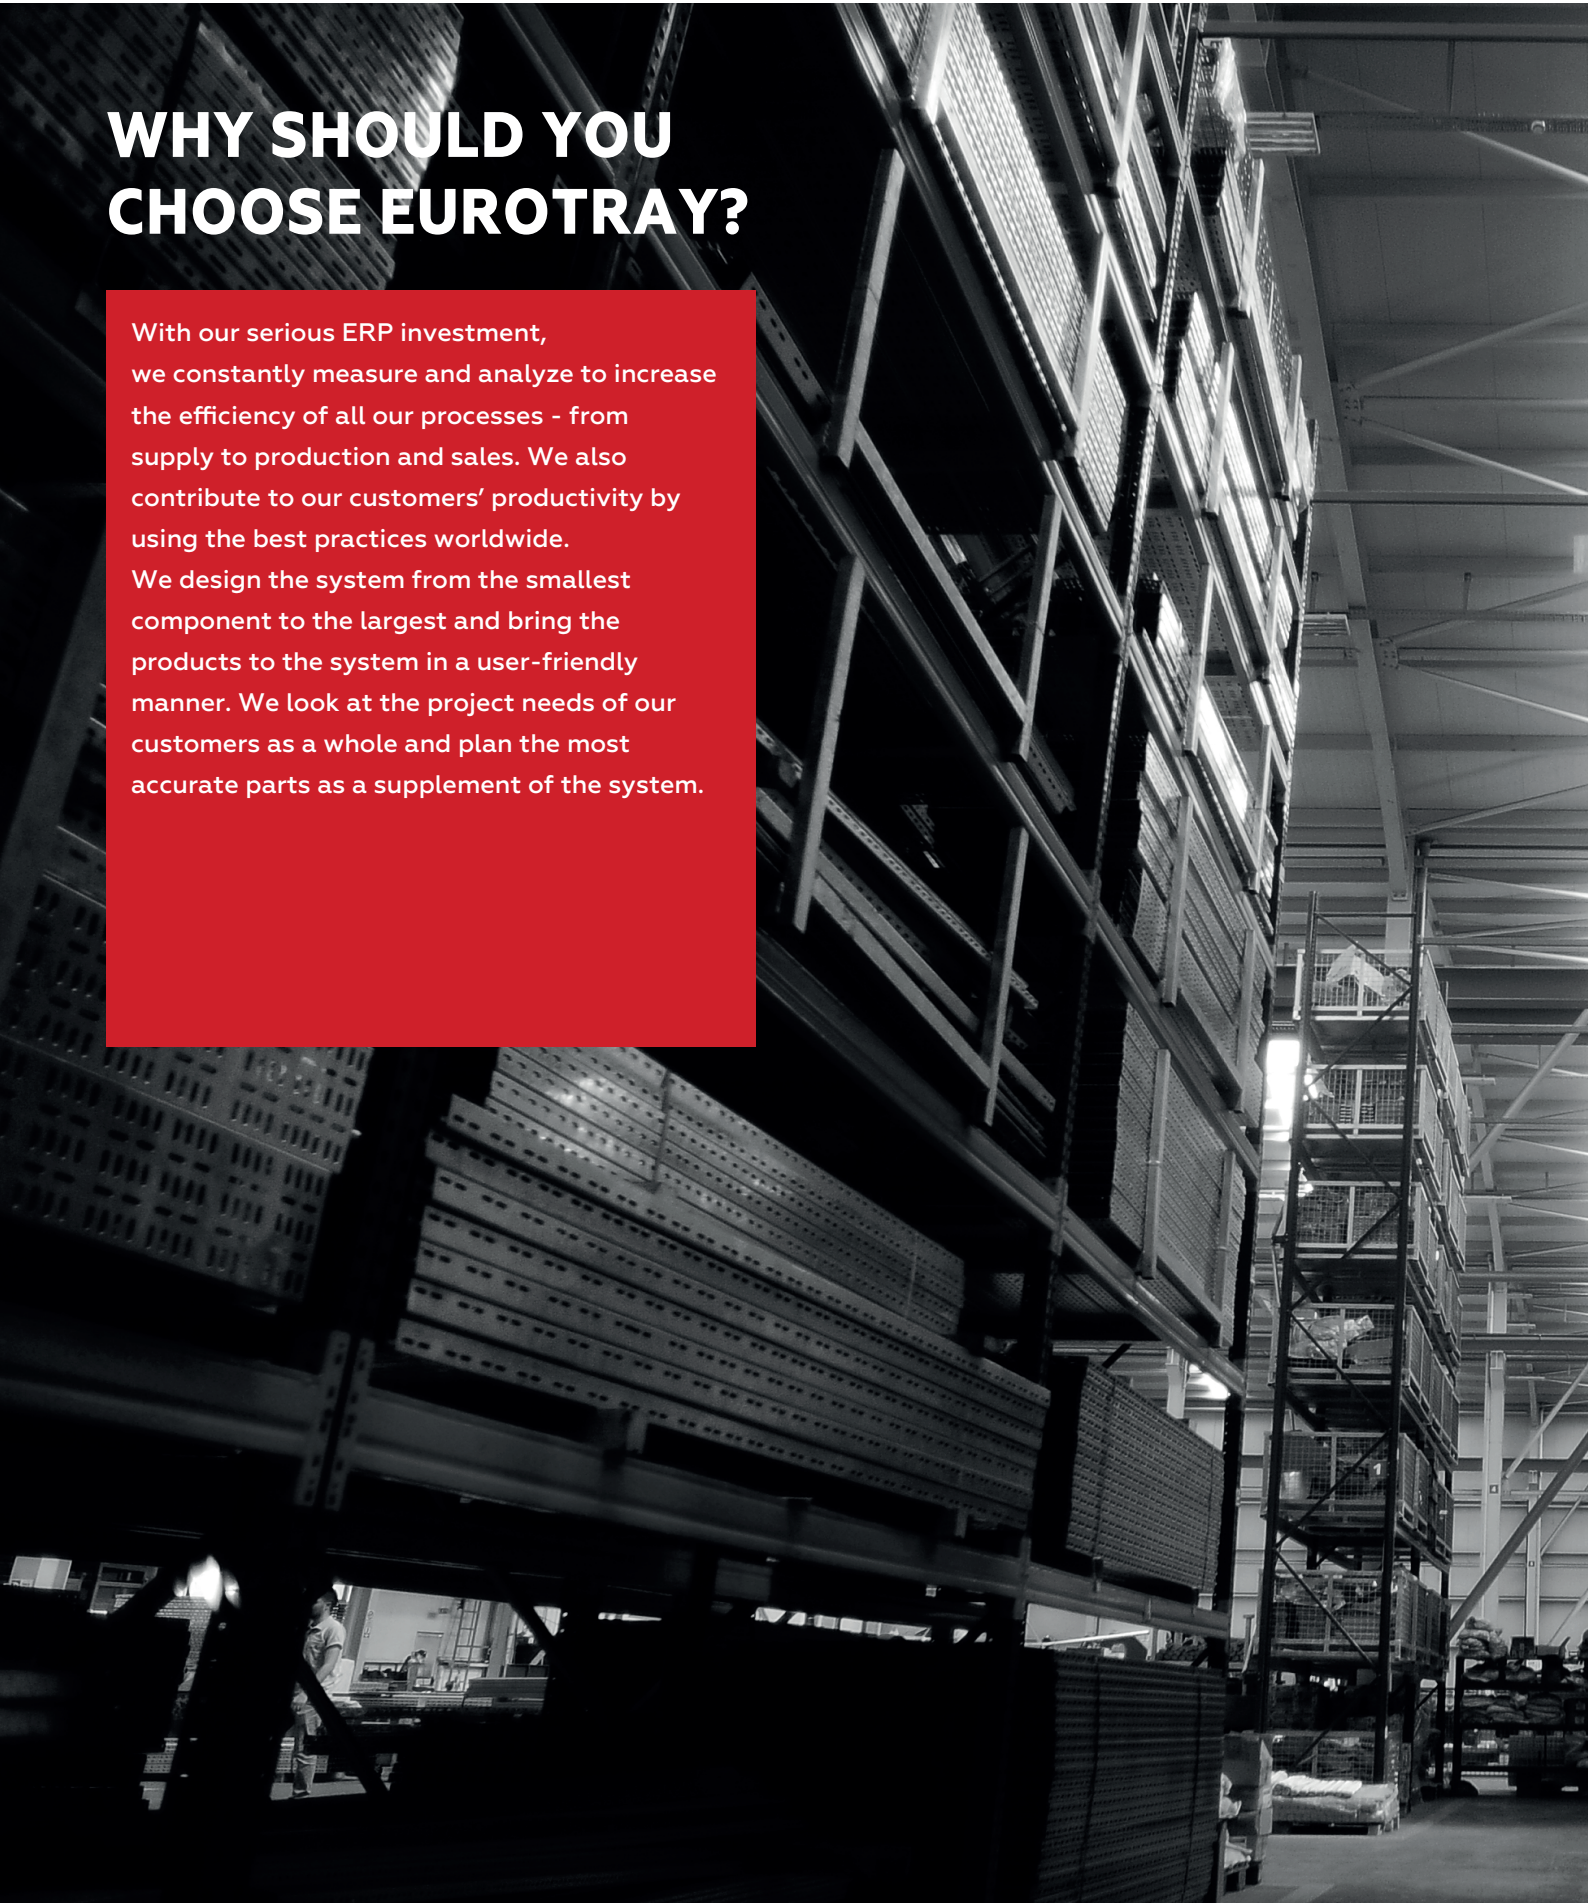

We do not compromise on understanding, openness, transparency, trust, product project, and standard requirements, which are based on our quality assurance system from supplier selection to packaging.

By this means, while we keep growing, we continue our production with the capacity of 20.000 tons/year in our Dilovası Factory, which we established in 2011, and with the strength, we receive from our strong references, we contribute to the economy of our country.

WHY SHOULD YOU CHOOSE EUROTRAY?

With our serious ERP investment, we constantly measure and analyze to increase the efficiency of all our processes - from supply to production and sales. We also contribute to our customers' productivity by using the best practices worldwide. We design the system from the smallest component to the largest and bring the products to the system in a user-friendly manner. We look at the project needs of our customers as a whole and plan the most accurate parts as a supplement of the system.

PERFECT TECHNIQUE

We offer superior technical excellence and expertise that deliver absolute value and quality.

PROJECT MANAGEMENT

By working closely with our customers, contractors and manufacturers we become an integral part of the project from start to finish.

INTEGRAL SOLUTION

We passionately care about every detail we make, from our customer service and design approach to our sensitive production and knowledge of sustainability.

GLOBAL CERTIFICATION

WIDE RANGE OF PRODUCTS

WHERE DO WE EXPORT? COUNTRIES

Eurotray has had a significant market share both in the domestic market and abroad since its establishment and has been the solution partner of many projects in more than 70 countries from Cameroon to Singapore, Iceland, and El Salvador with its production capacity and perfect planning skills. And continues to do so with firm steps.

SOLUTION PARTNER

With the experience of more than 30 years, our OEM Team can manufacture and provide a wide range of top quality and customized steel profiles and accessories to various manufacturers all over the World for more than 50 countries including Solar Mounting , Construction, HVAC, Electrical and many more industries. For OEM applications, Eurotray specializes in complete components solutions We provide sourcing to ensure that the materials meet your needs. We utilize cutting edge technology. We incorporate quality assurance (ISO 9001 – 14001 – 18001) throughout the process. We provide engineering consultations as well as custom manufacturing solutions to get your project or order from the drawing board to the customer.

Now we are aware that we are entering a period in which the conditions will be different from before.

METİN KAYA

Chairman of the Board

MESSAGE FROM THE ADMINISTRATION

As Eurotray, we continue our journey rapidly and always with the self-confidence of being ready for the processes with many changes and developments at the global level. The Eurotray brand, which we, as Çemesan, had the opportunity to show our half - century of experience in the Steel Industry at the final product destination, is growing day by day with

works to international giant projects and having a fast and dynamic team that can meet all kinds of needs of our customers. The fact that we are a team that keeps up with the dynamic and contemporary changes has made us more resilient in the fluctuating market conditions and allowed us to stay on the safe side in the economically negative period of the past few years. We are now aware that we are entering a period in which the conditions will be different from before. the advantage of being suitable for businesses in every scale from boutique

THE FACT THAT WE ARE A TEAM THAT KEEPS UP WITH THE DYNAMIC AND CONTEMPORARY CHANGES HAS MADE US MORE RESILIENT IN THE FLUCTUATING MARKET CONDITIONS AND ALLOWED US TO STAY ON THE SAFE SIDE IN THE ECONOMICALLY NEGATIVE PERIOD OF THE PAST FEW YEARS.

alert and organize their structures by looking to the future, in the uncertainty I mentioned above. Although it is painful to say this, a great advantage of our country is that it has never lost its faith in production and investment, despite having undergone many unsteady periods in its recent history.

I think that this situation makes us more experienced in risk management compared to developing countries. We have accumulated a lot of experience from many negativities, and the

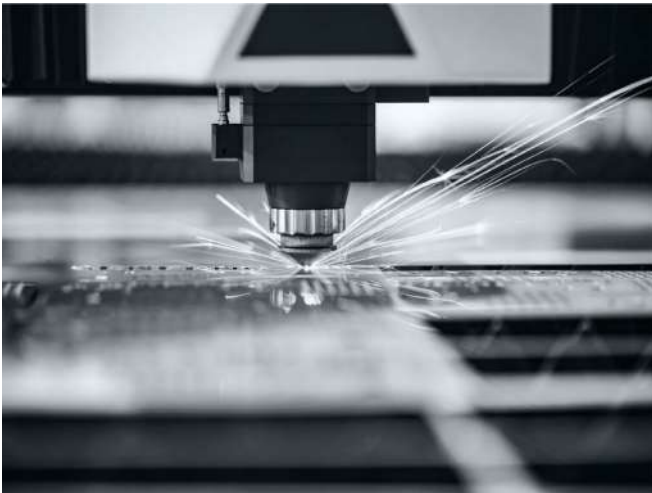

Perhaps it is a period that is unlike any previous periods both economically and socially. There may not only be uncertainties, but also opportunities in front of it, and these are waiting for us. However, both the production and infrastructure power of our country in the steel industry and

OUR PERCEPTION

We work closely with our customers. We fully support their projects. In this way, we produce special solutions suitable for our customers' needs. With the discipline of serving important projects all over the world, we look at the work not as mass production, but on a project basis, and work in full compliance with the delivery plan required by the project. Again, we work with the discipline of working in leading projects worldwide with superior the dynamic human resources are very important foundations for companies like us that want to be successes we have achieved enabled our belief and growth to continue. In return, as Eurotray, we continue to invest in both our machine park and our human resources, and perhaps we think we are on the edge of making a bigger leap than ever before. In this sense, we are grateful to our staff who trust us and our customers for contributing to this feeling a little more every day. quality standards.

As EUROTRAY, our company policy requires us to continuously improve our quality. We are proud to work as partners to support our customers who undertake important jobs worldwide.

PRODUCTION LINES

LASER CUTTING

- Material Thickness : 0,20- 20 mm
- Max Sheet Input: 2500 x 3000
- Pipe / Profile Section Cut featured

ROLLFORMING

- 6 Lines
- Material Thickness: 0,50 – 5,00 mm
- Material Width: 40- 810 mm

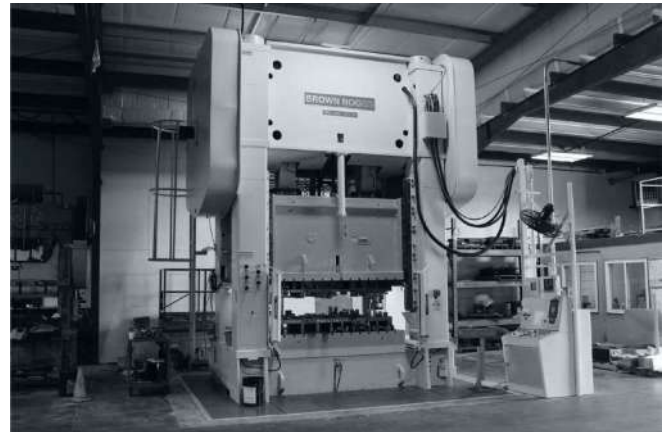

BENDING

- 5 Lines
- Material Thickness: 0,50 – 6,00 mm
- Material Length: Upto 6 meters

AUTOMATIC PRESSING LINES

- 11 Lines
- Material Thickness: 0,50 – 6,00 mm
- Material Width: 1.100 mm

WELDING LINES

- Gas Metal Arc Welding Lines
- Robotic Welding Lines
- Wire Mesh Welding Line

CNC TURRET PUNCH

- Material Thickness: 0,50-3,00 mm
- Material Dimensions: 1250 x 4000 mm

SLITTING LINE

- 3 Lines
- Material Thickness: 0,10-5,00 mm
- Material Width: 10–2000 mm

CUT TO LENGTH LINE

- 2 Lines
- Material Thickness: 0,10-5,00 mm
- Material Width: 50–1500 mm

SERVICES

COATING / SURFACES

- Electrogalvanized
- Hot Dip Galvanized
- Epoxy Painted
- Zinc- Magnesium
- Stainless
- Aluminium
- Aluzinc
- Pregalvanized Z100-Z600

LOGISTICS

- High Storage Capacity
- Customized Packaging
- Active Information transfer about the process
- Optimization of Supply Chain

DESIGN & ENGINEERING

- With the aid of its extensive software infrastructure and competent staff, we aim to reduce errors and cost in engineering calculations, computer-assisted modeling and scenario-based analyses, thus contributing to requirement of global customers.

QUALITY & INSPECTION

- Manufacturing process inspection
- Coating inspection and failure analysis
- Dimensional inspection
- Quality Control of Final Products
- Documentation according to International Norms
- Isted modeling and scenario-based analyses, thus contributing to requirement of global customers.

INDUSTRIES & APPLICATIONS

- Photovoltaic Mounting Structure
- HVAC Installation
- Furniture
- Vineyard
- White Appliances
- Storage Racks
- Construction
- Scaffolding
- Light Gauge Frames
- Fences
- Noise Barriers
- Stock-farming

· HVAC Installation

· Light Gauge Frames
